

Electronic Scoring is back for 2021. If you didn't play last year or you're a little rusty in terms of remembering the details, we encourage you to review these three quick videos. The total watch is 5 minutes.

- How to Check in to an Event - <https://www.youtube.com/watch?v=knSaEhoR6yQ>
 - **Important Points on this Video**
 - Scoring codes are sent out via text on the morning of each event.

- How to Enter Scores - <https://www.youtube.com/watch?v=EscjXKceER0>
 - **Important Points on this video**
 - If you are playing in a pro-am and all your team members do not show up right away click the gear image next to the word "SCORES" and you should be able to add everyone to your group.
 - If you click on the gear image next to "MY SHOTS" you can get rid of the stats part of the scoring module.

- How to sign the scorecard - https://www.youtube.com/watch?v=9DW_BEod1Ak
 - **Important Points on this Video**
 - Even though you can sign your card electronically, we still require ALL GROUPS to come to the scoring table to verbally confirm their scores. The verbal confirmation constitutes returning your card, signing it electronically does not meet that requirement.
 - If you do not have 100% of the scores in the round the sign scorecard feature will not pop up.
